With the speedy development and growth in the finance industry, Non-Banking Financial Companies (NBFCs) have been outsourcing various activities to either an affiliated entity within a group or third party external to the group) to perform activities on continuing basis that would normally be undertaken by the NBFC itself, now or in the future.

Generally, outsourced financial services include application processing (loan origination), document processing, marketing and research, supervision of loans, data processing and back office related activities etc. Due to outsourcing of various activities, NBFCs are exposed to various risks such as Strategic Risk, Reputation Risk, Compliance Risk, Operational Risk, Legal Risk, Exit Strategy Risk, Counter Party Risk, Country Risk, Contractual Risk, Access Risk, Concentration and Systemic Risk.
